Development Worldwide, registered association (DWW), Slovak Evaluation Society and Czech Evaluation Society have the pleasure to invite you to the European Program for Development Evaluation Training - EPDET 2015, to continue the tradition of this European summer school. Mini IPDETs in Europe started already in 2007 (see the section EPDET at [www.dww.cz](http://www.dww.cz)).

The core curriculum of the EPDET training follows a successful scheme of the summer school IPDET - International Programme for Development Evaluation Training ([www.ipdet.org](http://www.ipdet.org)), organized by the Carleton University, Ottawa, Canada.

EPDET 2015 will be provided in English again, by the top lecturers Dr. Linda G. Morra Imas and Dr. Ray C. Rist. The training is recommended for evaluators and managers of development projects and programs.

The training graduates will obtain Certificate of IPDET.

European offering of IPDET is co-organized by the association Development Worldwide (DWW), the Czech Evaluation Society, and the Slovak Evaluation Society.

### 08:30 – 10:10 **Understanding the Evaluation Context and the Program Theory of Change / Chapter 4**

This module examines evaluation planning. This module is about the front end of an evaluation – how to start. An evaluation that begins with a well-planned design is more likely to be completed on time and on budget and to meet the needs of the client and other stakeholders. A front-end analysis investigates and identifies lessons from the past, confirms or casts doubt on theory behind the program, and sets the context influencing the program.

- *Front-end Analysis*
- *Identifying the Main Client and Key Stakeholders*
- *Understanding the Context*
- *Tapping Existing Knowledge*
- *Constructing, Using, and Assessing a Theory of Change*

### 10:10 – 10:30 **Coffee Break**

After determining the evaluation questions, the next step will be to select an evaluation design approach that is most appropriate given each question. This module presents some guidelines, along with the strengths and weaknesses of various design options, but it is important to keep in mind that every situation is unique. There is no “one and only” way to address an evaluation question.

- *Connecting Questions to Design*

14:00 – 15:30 **Presenting Results / Chapter 13**

Once data collection and analysis are largely completed, it is a time to share preliminary results and to make plans to communicate the final results. Sharing what has been learned is one of the most important parts of an evaluation.
